EDUCATION

University of Massachusetts Dartmouth
North Dartmouth, MA GPA 3.33

- **Bachelor of Computer Science degree | Software Engineering Concentration** May 2025
- **Awards/Honors:** Chancellor's List (2x), Dean's List (4x), 2nd Place in High School Coding Competition, Work-Study Position at UMD, Capstone Project presented to NUWC stakeholders, Leadership recognition through ASU.
- **Relevant Coursework:** *Algorithms and Data Structures, Artificial Intelligence (AI), Formal Methods for Software Engineering, Large Software Systems, Software Process & Project Management, Software Quality Assurance & Testing, Senior Software Engineering Project I & II, Data Mining and Knowledge Discovery, Object-Oriented Programing I & II, Software Specification & Design, Web Software Development, Computer Game Design.*

TECHNICAL SKILLS

- **Languages:** Java, Python, C, C#, JavaScript, TypeScript, OOP, MATLAB
- **Frontend:** React, Next.js, Angular, WCAG, Vite, Tailwind, Sitecore, HTML5, CSS3, Unity 2D
- **Backend:** Node.js, Flask, JWT, SQLAlchemy, Selenium (testing & automation)
- **Databases:** PostgreSQL, MySQL, MongoDB (SQL/NoSQL)
- **Cloud & DevOps:** AWS, Docker, Kubernetes, GitHub, Jira, CI/CD pipelines, Agile Methodologies (Scrum)
- **AI & Data Science:** TensorFlow, PyTorch, Pandas, NumPy, Scikit-learn

PROJECTS

Senior Software Eng Proj – Naval Undersea Warfare Center (NUWC) *Technologies:Angular, Flask, MongoDB*

- Developed a Knowledge Management System (KMS) that unified fragmented technical documentation into a centralized, searchable platform supporting both connected and offline (air-gapped) environments.
- Built a three-tier architecture (Angular frontend, Flask API, MongoDB backend) with tokenized search, document viewing, and admin tools, optimized for Windows Server and Microsoft Office compatibility.

UMass Connect – Campus Social Platform *Technologies: React, Tailwind CSS, Flask, MongoDB, JWT*

- Built a responsive social web application that allows students to post, like, and comment, fostering community engagement across the UMass network.
- Implemented secure authentication using JSON Web Token and designed a clean, intuitive React/Tailwind interface backed by a Flask API and MongoDB database.

WORK EXPERIENCE

Brookdale Senior Living | Quincy, MA *Server: December 2019 – August 2021*
Chili's Grill & Bar | Braintree, MA *Server/Bartender: June 2022 - Current*

- Lead by example in a dynamic team setting, mentoring new hires and maintaining efficiency during peak hours.
- Recognized for exceptional interpersonal communication and problem-solving under pressure, strengthening customer loyalty and team performance.

LEADERSHIP & ACTIVITIES

Arab Student Union / Muslim Student Association | Umass Dartmouth 2023-2025
Built partnerships with Arab and Muslim professionals, businesses, and engineers to provide mentorship, career development, and networking opportunities for STEM students.

INTERESTS

Interested in Soccer, Blockchain & FinTech, Social entrepreneurship, and Chess ; Fluent in Arabic and French.
